Review codes of other team members, getting feedback from sales teams, training interns

Stack: VueJS - NodeJS

SKILLS

Languages

Javascript / Typescript

Frontend

ReactJs, VueJs

Backend

NodeJs

Technologies

Nginx, PM2, Docker

Database

MongoDB (Atlas & Cluster), Elasticsearch (ELK stack)

Architech

Microservices

Event-sourcing, CQRS

Monitoring

Prometheus, Grafana

Testing - TDD/BDD

Unit test, contract test, e2e test

Mocha, Cucumber, Chai, Jest

CI/CD

Gitlab CI, Github Actions

EDUCATION

University of Technology
Sydney

Reference: Bui Thanh Son (son.bui@esbt.com.vn) -
Technical Leader

Freelancing

OCT 2019 - JAN 2020

Working on freelance projects, learning new tech while travelling

Tech: Typescript - ReactJS

Oriental Produce, Sydney — *Junior Web Developer*

Develop and maintain reactjs web application to store orders, stock, link to MYOB, connect to mail servers

Assisting in setting up and maintaining servers, databases for storing company datas

Working with third parties for external services (Digital Ocean, Crazy Domains..)

Stack: NodeJS -ReactJS

Reference: Teresa Nguyen
(teresa.nguyen@orientalproduce.com.au) - Managing Director

PERSONAL PROJECTS

Social Network

<https://github.com/jackdo69/Social-Network-Frontend>

Build a fully-function social network page

Stack: React-Node Typescript-Docker-Elasticsearch

Photos App

<https://photos-sharing-97a24.firebaseio.com/>

Support upload/ download images to storage, like photos

Stack: React - Node/Express - MongoDB- GCS

Restaurant App

<https://restaurant-app-8781d.firebaseio.com/>

Fully-function web app for restaurant and cafeteria, support for making reservations, booking,

2015-2018

**Bachelor of Science in
Information Technology**
Major in Enterprise Software
Development

[it]Intech

2012-2014

**Advance Diploma of
Information Technology**

ENGLISH

IELTS: 7.0 (2017)

PTE: 88/90 (2018)

NAATI CCL: 63/90 (2019)

authentication..

Stack: React.js - Redux - Firebase

Pronote App

<https://pronote-2026b.web.app/>

Simple Clones of Google Keep allow users to sign up, login, create Journals, Entries, hide, edit, archive....

Stack: Vue.js - Firebase
